Thank you

At AICO-Zero Waste we are passionate about reducing plastic packaging pollution and providing sustainable alternatives to help reduce waste in our world.

Our mission is to encourage people to rethink the way we consume wasteful products and continue to offer unique, interesting and durable alternatives we like to call zero waste swaps.

Order the quantity that best suits your needs.

Natural Eco Wood Fire Starters with Beeswax

“The perfect alternative and replacement of chemical fire starters”

Our natural eco wood fire starters are made here in the U.K from renewable untreated wood wool dipped in recycled beeswax.

How is it eco? Our suppliers are FSC accredited and uphold the ‘Forests For All Forever’ values. This means for any tree felled, a handful of trees must be planted to ensure an ever-eternal cycle and abundance of trees.

Why buy eco-wood wool fire starters?

- Stay cosy this Winter
- Great all-year-round for home fires + fire pits + chimineas + BBQs + wood burners + stone pizza ovens + campfires
- Sustainable – you only need one to start your fire. Use less kindling and paper so all supplies last longer!
- Long burn time - between 8-10 minutes
- Natural - chemical free and odourless
- Plastic free – reduce plastic pollution
- Easy to light - will ignite even when damp
- Supports local business – product, printing and packaging are all locally sourced.

Product Specifications

- **Made with** wood shavings, beeswax, fully refined and recycled paraffin wax (max. 0.5% oil content)
- Box dimensions: 11cm deep x 13.5cm long x 18.5cm high
- Box weight: approx. 442g
- Fire starter quantity: approx. 50 fire starters
- GS1 UK Barcode 5060719430036

Other

- For orders above one pallet (405 boxes), please contact us for further details.

Reusable Washable Bamboo Cotton Face Pads

“An exciting replacement for disposable single-use cotton pads - reduce, reuse, and recycle”

The Bamboo Cotton Face Pad Kit contains 18 triple-layered pads with one side for gentle exfoliation (80% bamboo-20% cotton) and one for smooth cleansing (70% bamboo-30% cotton.) The pads are absorbent without requiring overuse of water or cleanser, and have many more uses besides face cleaning. The full kit comes with easy care instructions, eBook with facial recipes, wash bag and makeup bag.

How is it eco? Bamboo is *the* leading sustainable plant. It grows fast, does not require pesticides and it's cultivation provides jobs in developing countries.

Why buy reusable bamboo cotton face pads?

- Wash & reuse up to 1000 times
- Plastic free
- Biodegradable
- Quality and traceability - our fabric supplier is OEKO-TEX certified
- Visual Appeal and Presentation (see photo) - biodegradable/recyclable carton
- Product information provided on the backside in EN, DE, FR, IT, ES languages
